PROJECT TITLE : PATENTS

PERIOD COVERED : OCTOBER 17 - DECEMBER 16, 1981

WRITTEN BY : Mandiratta-J-C. (MJA)

NEW PATENT ISSUED

The under-mentioned patent was issued recently :

Luxemburg 82199 Continuous Process of Denitration of Tobacco

PROJECT EXIT

It has been confirmed by the Swiss Patent Office that Brown & Williamson has filed a patent application, No 2656-80, on April 3, 1980, on the basis of the United States priority No 29230. In spite of the fact that there is no examination procedure in the Swiss Patent Office, it was decided by the PME Patent Committee to submit an opposition letter in line with those already submitted to the West German, Swedish, Netherlands and French Patent Offices.

PME PATENT COMMITTEE

This year's last PME Patent Committee Meeting was held on December 3, 1981 (see Minutes, dated 8.12.1981).

VISIT

Dr. Hach visited us on December 7, 1981.

PATENT DOCUMENTATION

All documents remaining pendant have been put on our STAIRS system for patent documentation.
